

YOUR FINANCIAL INFORMATION IS OUR TOP PRIORITY

RAPID BILL PAY IS SERIOUS ABOUT SAFEGUARDING YOUR INFORMATION

We follow rigorous security procedures to protect your information and transactions against unauthorized access. Our entire system was developed from the ground up to protect and ensure the confidentiality of our customer's information.

TLS Encryption

For many years the term SSL has been synonymous with security. Today's most secure systems use Transport Layer Security (TLS) technology to encrypt your personal information such as User IDs, Passwords, and account information transmitted over the internet. Rapid Bill Pay always uses the latest and strongest possible TLS to secure your information.

Our Customer's Information is of Utmost Importance to Us.

We maintain procedural safeguards that comply with all industry standards related to protecting personal and financial information. Rapid Bill Pay's thorough security procedures are designed to ensure that your information is kept completely confidential. That's why Rapid Bill Pay works with the industry security standards groups to assure full Payment Card Industry (PCI) Data Security Standard compliance.

OUR SECURITY COMPLIANCE INCLUDES:

- MasterCard Site Data protection program
- American ERapid Data Security Standards
- Discover Cards DISC
- Visa Cardholder Information Security Program (CISP)
- High Assurance Certificate

Rapid Bill Pay incorporates a "High Assurance" certificate issued by Go Daddy Inc. Certificate Authority. A High Assurance certificate ensures all confidential transactions are protected with highly reliable 256-bit encryption.

A Secure Network is a Top Priority to Your Organization

We understand that maintaining a secure network internal to your organization is a priority for you. To offer this level of security and reliability we've partnered with one of the hosting industry's premier providers: Center 7 Data Centers. Their redundant infrastructure provides a 100% uptime guarantee, with 7 state-of-the-art data centers across America.

Our Commitment to You

Rapid Bill Pay is committed to providing a completely secure environment for presenting and paying bills online. Customers benefit from the ease-of-use of the system and can have confidence in the security of their online transactions.
